

# SU FIETE<sup>B</sup>

High yield and very healthy

## Advantages:

- High yielding vigorous compensation type with medium heading and medium-late ripening date
- Good overall resistances, especially high mildew, septoria, yellow rust, brown rust and eye spot resistance (pch1-resistance)
- Medium-high falling numbers, high specific weight
- Good N-effectivity, high protein stability

## Cultivation:

Suitable for early sowing dates  
Little need of fungicides  
CTU tolerant

## Short profile:

---- = very low resistance/early/short,

++++ = very high resistance/late/long

### Plant Development

### Vitality

Winter hardiness	5 (medium)
Drought resistance	6 (medium-high)
Lodging resistance	<div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div></div>
