

# NORDH<sub>B</sub>

The vodka wheat

## Advantages:

- The vodka wheat with registration in Sweden
- Good and balanced resistance against of leaf and ear disease
- High hagberg falling number, hectolitre weight and starch content

## Cultivation:

NORDH is a special product, with South Sweden as main growing region

## Short profile:

---- = very low resistance/early/short,

++++ = very high resistance/late/long

### Plant Development

### Vitality

Winter hardiness (6) medium to high

Drought resistance (6) medium to high

### Plant Health

### Quality

# NORDH <sub>B</sub>

The vodka wheat

## Plant development and vitality:

Ear emergence	
Maturity	
Winter hardiness	(6) medium to high
Drought resistance	(6) medium to high

## Yield structure:

Yield structure	Plant density type
Ears/m <sup>2</sup>	
Grains/ear	
TGW	

## Sowing:

Time of sowing	all sowing dates
Seed rate	locally adapted

## Straw:

Plant height	(4) short to medium
Lodging resistance	
Plant growth regulator	standard

## Disease resistance:

Mildew	
Septoria leaf bloch	
Yellow rust	
Brown rust	
DTR	
Fusarium	

## Fungicides for intensive cultivation:

Early treatment	according standard
Final treatment	according standard

# NORDH <sub>B</sub>
